DIVING:

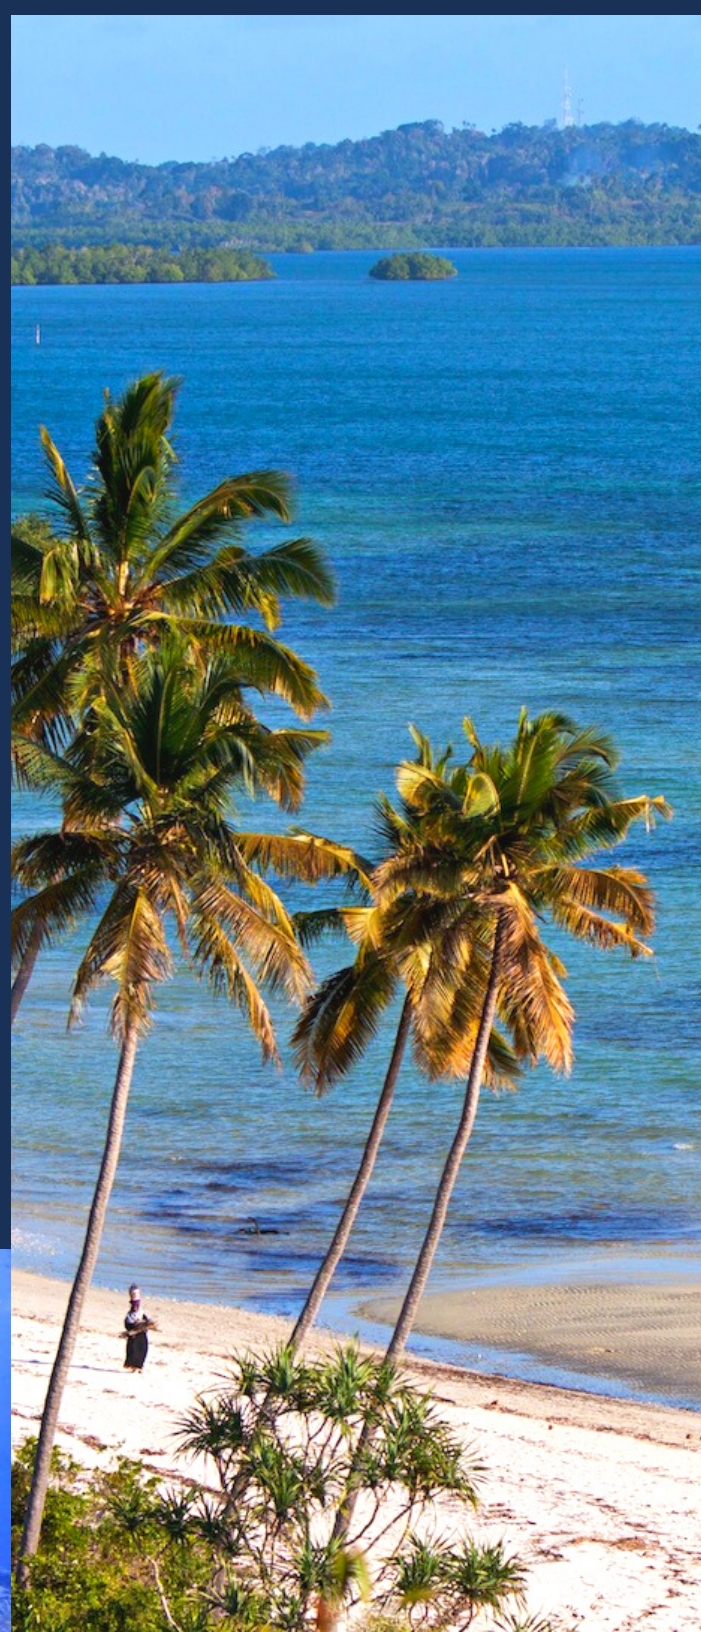

We are fortunate to have the most exhilarating drift diving in East Africa.

Our diving is predominantly drift and wall diving with regular sightings of schooling barracuda, giant trevallies, napoleon wrasse, huge groupers, turtles, blue-spotted, blotched fantail eagle and manta rays as well as thousands of reef fish.

The underwater terrain holds stunning gorgonian sea fans, giant sponges as well as ancient cabbage corals.

Average visibility ranges from 20 to 40 meters, peaking from October to March, when the sea conditions are calmest.

The water temperature is a warm 27 to 28°C and the dive center is stocked with the appropriate 3mm full-length wetsuits as well as Scuba-Pro and Aqualung equipment

FISHING:

Game Fishing, Pemba Channel:

World-class game fishing lies right on our doorstep and our trips are skippered under the watchful eye of certified skippers.

Many acrobatic sailfish and striped marlin hunt in the channel area from November to April and big shoals of yellowfin tuna arrive in August with predators following.

Large Giant Trevally and Dogtooth tuna patrol the deep drop offs, we target them along with poppers throughout the season.

Our boat, Vumba, takes up to 2 guests. This is available year-round for day trips of up to 8 hours.
